TRACT 2

Only the following easements supplied to me have been reviewed and are addressed as follows: Volume 308 Page 592; Volume 888 Page 418 to Texas Power and Light are unlocatable by description and does affect by ingress egress. Volume 5187, Page 771 to Southwestern Gas Pipeline, Inc. does affect this tract as shown.
Volume 1933, Page 979 to City of Dentonis a 30' Street Dedication and does affect this tract as shown.

The Deed to Ed Wolski, Trustee Recorded in Volume 2895, Page 470 Real Property Records, Denton County, Texas closes mathematically. It makes adjoiner calls to the City of Denton tract Recorded in Volume 857, Page 523, Deed Records, Denton County, Texas and by honoring the dignity of calls and holding monumentation the Wolski tract should of yielded to the property lines as shown, which would yield no conflicts. It is in the opinion of this Surveyor that the most Southwesterly West call of 1333.00 feet and the most Northerly West call of 1830.67 feet of the Wolski Deed must have been error.

FLOOD STATEMENT: I have examined the F.E.M.A. Flood Insurance Rate Map for the City of Denton, Denton County, Texas, Community Number 480194, effective AL 3-30-98 and that map indicates that a portion of this property is in your flood with which is defined as "special flood hazard areas inundated" which is defined as base flood elevations determined', a portion is low with average depths of less 'areas of 500-year flood; areas of 100-year than 1 square mile; and areas protected than 1 foot or with drainage areas a portion is in 'Non-Shaded ZONE X' which is by levees from 100-year flo defined as 'areas determined to be outside of the 500-year floodplain' as shown in Panel 355 F of said map.
